KiWin – With children into the world of diversity.

KiWin

- is a project run by the institutes KinderStärken e.V. and Competence Centre for Early Education at the University of Applied Sciences Magdeburg-Stendal.
- generates knowledge about how children discern and handle diversity.
- develops innovative methods to support children and early education professionals in rural areas in the process of dealing with diversity.

KiWin

- cooperates with day-care centres, parents and children in Stendal, Germany, and beyond.
- conducts participatory observations and reflects its insights in agreement with all parties involved.
- supports educational practice through workshops for professionals and children and develops existing methods.

Day-care centres

- Kita Bubila (Stendal)
- Evangelische Kita (Stendal)
- Kita Waldesrand (Grieben)
- Kita Knirpsenland (Iden)
